

Hooklift RK 26.60 L - RK 26.70 L

(according to DIN 30 722-2)

Technical Data

Technically admissible payload max. 26.000 kg
 incl. container
 Effective payload 18.000 – 26.000 kg
 incl. container (depending on the chassis)
 for chassis with a permissible g.v.w. from 28.000 kg

Hydraulic system:

Pump flow rate at 1 115 r.p.m. 105 l/min
 Oil tank capacity (effective) 50 l
 Capacity of the entire hydraulic system 155 l

Operating time:

a) Setting down 21 – 33 s
 b) Tipping 33 – 39 s
 c) Picking up / lowering 44 s

Containers according to DIN 30 722-2

with strap height 1.570 mm
 optional 1.370 – 1.480 mm
 Max. container width according to StVZO 2.550 mm
 See Container data sheet 0395 0651 033 page 1
 Mobile compactors according to DIN 30 730
 Special containers by arrangement.

* Tipping is only possible with limitations due to the short container overhang.
 ** The maximum container height is dependent on the vehicle and should be chosen such that, in accordance with the German Motor Vehicle Construction and Use Regulations, the overall height of 4 000 mm is not exceeded when the vehicle is unloaded.
 *** The heights are based on a container height of 2 400 mm.
 **** Weight without oil tank, pump, fixing parts, mud guards, additional equipment such as under-ride guard, axle support, internal locking mechanism, etc. Excess weights depending on the chassis.
 Exact dimensions and weights will be given, once a chassis has been chosen. For suitable chassis see lists of recommended vehicles.
